Foreign Commerce - High School

2013.

Experience

BAYER

I have 1 year of working experience as an Intern for the Risk Managment, Reporting area in Bayer. I was responsible for the creation, automation and maintance of several credit and cash flow reports. My most remarkble skill when doing these regular tasks was combining my VBA and Excel knowledge to create and improve Dashboards.

I executed a forecasting project that involved using my own algorithm created in R to improve automatic forecasting performance of time series by ensemble models, I then hirarhical forecasts bringing information on all branches of recevables toghether, most importantly the project proved the viability of doing automated forecasts, potencialy reducing working hours threfore costs.

ERNST & YOUNG
